

# Jatheon Cloud for the Government Industry

## The Challenge

U.S. government IT leaders face challenges with data archiving due to stringent data retention requirements and the need to meet open data request deadlines efficiently. Balancing data privacy and retention is crucial, especially given the sensitive nature of government data.

The increasing use of social media and non-email channels for official communication adds complexity to data management and requires robust solutions to capture and archive these diverse data streams. Additionally, limited budgets constrain the ability to implement and maintain advanced archiving systems, making it difficult to ensure compliance and security while managing vast amounts of information effectively.

## Product Overview

Jatheon helps government agencies stay aligned with data retention and privacy laws with an all-in-one archiving solution to automate records retention, FOIA and Sunshine Law requests, supervision, and audit readiness across different use cases and communication channels.

## Reduced Complexity and Streamlined Compliance

Jatheon helps agencies speed up response times to open data requests. The advanced search feature scans millions of records in under a second, ensuring swift data retrieval. The platform supports fast and reliable exports, making it easier to manage and share information as needed. Additionally, Jatheon consolidates data from multiple content sources into a single, accessible system, which simplifies compliance and operational efficiency despite working within limited budgets.

# Key Benefits

Jathon offers a robust set of features to simplify compliance and legal obligations, while reducing overall costs and the IT footprint. Included in the most recent Gartner® and Radicati Archiving reports, Jathon leads the government sector in keeping pace with evolving regulations and allowing agencies to ensure privacy, security, and integrity of data.

## Automated Retention

- ▶ Comprehensive capture across a wide variety of communication channels.
- ▶ Data is stored in a compliant, tamper-proof and auditable WORM format.
- ▶ Flexible data retention policies and automated lifecycle management.

## Privacy and Protection

- ▶ Access requirements like two-factor authentication and geofencing.
- ▶ Encryption, multi-zone redundancy, and AWS-guaranteed data protection.
- ▶ Robust security controls to protect sensitive student data.

## Ediscovery and FOIA Readiness

- ▶ Easy retrieval and access to data for authorized users.
- ▶ Detect violations, track problematic keywords, and detect breaches.
- ▶ Powerful search, PII redaction and export for faster and more efficient records retrieval.
- ▶ Message integrity verification to prove authenticity.

## Compliance Workflows

- ▶ Customize and centralize retention schedules, prevent alteration and deletion of data, and monitor all user activities in the archive.
- ▶ Control privacy and prevent unauthorized access and actions with custom user roles and unique permissions.

## Cost Control

- ▶ Automated, white-glove migration from legacy and competitor systems.
- ▶ Simple and predictable pricing structure with no unexpected costs.

# Supported Platforms

\* No minimum seat requirement

- ▶ Email (Gmail, Office 365, Microsoft Exchange, IBM Lotus Notes, Novell)
- ▶ WhatsApp
- ▶ MS Teams
- ▶ Zoom
- ▶ Twitter
- ▶ Facebook
- ▶ Instagram
- ▶ Text messages and calls

## About Jatheon

Since 2004, Jatheon has relentlessly focused on delivering an all-in-one data archiving solution that supports the widest array of use cases, communication channels and deployment options. Our solution mitigates risk, saves costs and improves visibility with advanced data retention, search/discovery, and supervision capabilities, all backed by world-class support. With analyst validation from Gartner®, Radicati and InfoTech, Jatheon achieves 100% customer retention and is consistently ranked among the highest recommended archive solutions on the market.

Jatheon is headquartered in Toronto, Canada and serves clients worldwide through a wide network of global business partners. For more information, please visit [www.jatheon.com](http://www.jatheon.com).
